

## Engineering Technical Order

Date: November 30, 2011

### **Deployment of SERD 116 Drain Hose Assembly and SERD 117 Data Package Gear Tool, Maintenance Note 68**

A number of improvements were made to the Data Package Assembly, R400-2A1A1A2. Two new SERDs were developed to support these enhancements. These are SERD 116, Hose Assembly, Drain, Data Package (ASN R400-SE60, NSN 4720-01-589-6710) and SERD 117, Gear Tool, Data Package (ASN R400-SE59, NSN 5120-01-587-3233). The purpose of this action is to ship these SERDs to each site to be used when the new Data Package Assembly is installed. Upon receipt of each SERD all sites should retain them indefinitely to be used as needed.
