

Points of Contact at
WSR-88D Level II Data Collection and Distribution Network Top Tier Sites
As of: 9 January 2012

The National Weather Service uses NOAAnet to send Level II data to four “top tier” nodes. The node at Unidata is used to meet the needs of .edu organizations/Unidata member universities.

Other users, particularly the private sector, can obtain Level II data from the other three top tier sites on a cost-recovery basis. Below are the points of contact, no preference is implied, for obtaining information on Level II data services from a top-tier site:

Purdue University

Prof. Matthew Huber
(765) 494-3258
huberm@purdue.edu

Education and Research Consortium of the Western Carolinas

Hunter Goosmann
(828) 350-2415
hgoosmann@ercbroadband.org

The University of Oklahoma

Gary Skaggs
(405) 325-6440
gskaggs@ou.edu

or

Carl Sinclair
(405) 325-5938
csinclair@ou.edu
