Technical Implementation Notice 10-22 Amended  
National Weather Service Headquarters Washington DC  
759 AM EST Mon Mar 7 2011

To: Subscribers  
-Family of Services  
-NOAA Weather Wire Service  
-Emergency Managers Weather Information Network  
-NOAAPORT  
-Other NWS Partners and Employees

From: Richard J. Vogt  
Director, WSR-88D Radar Operations Center

Subject: Amended: Availability of WSR-88D Dual  
Polarization  
Products and Level II Data from Vance AFB, OK

Reference: Technical Implementation Notices (TIN) 10-22 and  
10-23 (Corrected) dated November 2, 2010 and  
TIN 10-22 Amended dated February 11, 2011

The earlier announced WSR-88D (Weather Surveillance Radar-  
1988, Doppler) Field Test of the Dual Polarization  
modification at Vance AFB, OK (KVNS) has begun. The KVNX  
Level II data, including the three added dual polarization  
moments, are on the Level II Data Collection and  
Distribution Network. The KVNX dual polarization products  
will be distributed beginning March 8. Until then, only the  
full suite of legacy products will be available for KVNX.  
The referenced TINs are available at:

[http://www.weather.gov/os/notification/tin10-23dual\\_pol88dcca.htm](http://www.weather.gov/os/notification/tin10-23dual_pol88dcca.htm)

and

[http://www.weather.gov/os/notification/tin10-22dual\\_pol88daab.htm](http://www.weather.gov/os/notification/tin10-22dual_pol88daab.htm)

Further information on the Dual Polarization Beta Test and  
deployment schedule will be provided when available, expected  
by the end of March 2011.
