

**Points of Contact at
WSR-88D Level II Data Collection and Distribution Network Top Tier Sites
As of: 17 May 2013**

The National Weather Service uses OPSnet to send Level II data to four “top tier” nodes. The node at Unidata is used to meet the needs of .edu organizations/Unidata member universities.

Other users, particularly the private sector, can obtain Level II data from the other four top tier sites on a cost-recovery basis. Below are the points of contact, no preference is implied, for obtaining information on Level II data services from a top-tier site:

Purdue University

Prof. Matthew Huber
(765) 494-3258
huberm@purdue.edu

Education and Research Consortium of the Western Carolinas

Hunter Goosmann
(828) 350-2415
hgoosmann@ercbroadband.org

The University of Oklahoma

Integrated Robust Assured Data Services (IRADS)
